

The Use Of Ethnographic Fieldwork In HTA

Helle Ploug Hansen, Department of Public Health, University of Southern Denmark, hphansen@health.sdu.dk; Tine Tjørnhøj-Thomsen, University of Southern Denmark

- **Robust scientific evidence**
- **Joining the people under study**
- **Participant observation & interviews**
- **Understanding the social and cultural world**
- **Good fieldnotes and transcribed interviews**
- **Highly relevant in assessments**
